# Liver Update 2017

Join us in Ahmedabad

**10<sup>th</sup> SUNDAY**  
SEPTEMBER 2017

Venue : J B Auditorium,  
Ahmedabad Management Association,  
Opp. IIM, Ahmedabad

## Modern treatment options for Liver Metastases *Where are the limits?*

**The interactive meeting will provide answers to the following questions:**

- Is it possible to cure patients with liver metastases?
- How to do preoperative assessment of patient and liver?
- How do neoadjuvant chemotherapy impact on our approach to CRLM?
- How to appropriately evaluate response to treatment?
- How do I manage disappearing or missing metastases?
- How to define and optimize resectability for metastases?
- How to achieve a complete surgical resection?
- How do I use and optimize ultrasound guided CRLM surgery?
- Do I prefer anatomical to non anatomical resections?
- How to deal with resection margin issue?
- How to manage very large CRLM?
- How do I practice intraoperative RFA?
- How do I manage two stage procedures?
- How do I manage the primary tumor with synchronous CRLM?
- How do I approach liver metastases from neuroendocrine tumors?
- What is the role of liver resection for noncolorectal - nonneuroendocrine liver metastases?
- What is the current role of the other regional therapies or targeted radiotherapies?
